

TAP Conflict of Interest Policy

ULI Northern New Jersey encourages the participation of its members and other volunteers in programs that it sponsors. In order to advance ULI's mission -- to provide leadership in the responsible use of land and in creating and sustaining thriving communities worldwide -- ULI NNJ prides itself on providing unbiased expertise. To uphold this standard, volunteers participating in the technical assistance program must not have any real or perceived conflict of interest in the outcome of the activities. Therefore, each volunteer participating in a technical assistance panel must agree not to seek, bid on, participate in, or otherwise be involved in any real estate development activities or projects within the study area for six months following the conclusion of the panel.
